

Job Description (Senior) Product Owner

We are looking for a (Senior) Product Owner, who is excited to be part of a growing Fintech Venture located in the heart of Europe/Vienna.

You will work closely with our CPO and Development Team defining new Features and Product Enhancement.

Your Daily Business:

- Technical Analyses and Feature Specifications
- Solution Documentation Definitions
- Creation of API Specifications
- Creation of User Stories accordingly to Scrum process
- Support during Pre-Sales Phase being technical SME
- Close cooperation with the entire team (cross- functional)

You should have the following skills/knowledge to be successful in this Role:

- Several years experience as technical Product Manager or Business Analyst
- Knowledge working with webservice (REST, SOAP)
- Working Experience in creating Workflows and Wireframes
- Knowledge about relational databases (eg.: Postgres)
- Experience with JIRA
- Business knowledge of the payment industry is an advantage
- Very good Knowledge of English and good German

What you can expect working with us:

- Flat hierarchies and short decision-making paths
- Choose your HW of choice (Mac, Windows)
- Home office possibility
- Room for further development
- Modern Office Environment in Vienna with good public accessibility
